Conclusion
& Way Forward

DEAR ICOPH COMMUNITY;

We are pleased to present a summary of the key highlights and accomplishments from the 11th International Conference on Public Health (ICOPH) 2025, held from August 7 to 9, 2025, in Bangkok, Thailand.

Centered around the theme “Redefining Public Health: Harnessing Innovation, Collaboration, and Equity for Resilient Public Health Systems,” the conference offered a space for exploring real-world solutions to contemporary health issues. Experts and participants from across disciplines engaged in conversations on how innovation, community partnerships, and equitable policies can drive long-term improvements in health systems. Sessions highlighted the integration of research into practice, the role of data and technology, and the importance of inclusive health planning. This exchange of knowledge and experience strengthened global networks and opened doors for future research, joint initiatives, and impactful collaborations.

CONFERENCE OVERVIEW

Key data of the conference:

Total number of abstracts received: **801**

Total number of presenters and attendees: **Physical: 300 | Virtual: 148**

Sessions Held: **33 Physical Sessions | 18 virtual Sessions**

Countries Represented: **54**

Special Features: **Keynote Speeches | Plenary Speeches | Workshops
Bilateral Academic Forum | Participants Networking Spaces |
Awarding Ceremony**

RESEARCH PRESENTATIONS

Key highlight of the conference was the extensive range of high-quality research papers presented by seasoned academics, students, practitioners and industry representatives. These contributions underscored the conference's commitment to academic excellence and real-world applicability, offering insights that bridged theory, policy, and practice. Paper Presentations covered a broad spectrum of topics, including, but not limited to;

Primary Health Care, Epidemiology, Communicable Diseases, Non - Communicable Diseases, Mental Health, Maternal and Infant Health Sexual and Reproductive Health, Adolescent and Young Adults Health, Nutrients and Dietetics, Health Communication and Health Information Technology, Health Economics, Occupational Health and Safety.

Sessions were structured to encourage critical engagement, with many presentations followed by in-depth Q&A segments, encouraging meaningful dialogue among participants. In addition to standard Q&A, each technical session included a dedicated time slot known as Technical Dialogue, a structured discussion space designed to promote collective reflection and cross-presentation synthesis. These segments provided an opportunity for presenters to engage in shared discussions on emerging themes, methodological challenges, and policy implications raised by the session's papers.

Priority SDGs:

ICOPH conference series is firmly committed to supporting the United Nations Sustainable Development Goals (SDGs) through evidence-based dialogue and actionable insights. Each session, paper, and technical discussion is designed to not only raise awareness but also drive tangible progress across health-related goals.

Priority SDG

Sessions on Nutrients and Dietetics explored strategies to address malnutrition, food insecurity, and sustainable dietary practices. These discussions directly support efforts to achieve food security and improved nutrition globally.

Priority SDG

From communicable and non-communicable diseases to mental health and maternal care, the conference addressed comprehensive health topics. The multidisciplinary focus reinforced the need for integrated health systems and policy responses.

Priority SDG

Presentations and dialogues at the conference highlighted the intersection of clean water access, sanitation, and disease prevention. The discussions recognized that inadequate water and hygiene are fundamental drivers of public health issues, especially in vulnerable communities. Effective water, sanitation, and hygiene (WASH) strategies were underscored as essential to public health.

Priority SDG

Health disparities were a recurring theme across many sessions, with a focus on marginalized populations such as adolescents, migrants, and low-income groups. Research emphasized the importance of inclusive health policies and equitable access to services. ICOPH served as a platform to explore how public health interventions can reduce systemic inequalities.

Priority SDG

The conference acknowledged the growing health impacts of climate change, including rising infectious diseases, heat-related illnesses, and food insecurity. Public health experts presented adaptive strategies and policy responses to climate-related health threats. These insights stressed the urgency of integrating climate resilience into public health planning.

Priority SDG

ICOPH fostered collaboration between academia, governments, NGOs, and the private sector, highlighting the value of cross-sectoral partnerships in achieving global health goals. Technical Dialogue sessions encouraged shared learning and joint problem-solving. This collaborative spirit reflected the essence of SDG 17, strengthening partnerships for sustainable development.

"Empowering the Global South, Engaging the World: Building Bridges in Public Health"

Organized by The International Institute of Knowledge Management (TIKM) based in Sri Lanka, ICOPH exemplifies how the Global South is increasingly shaping global public health conversations. While the majority of participants and organizers represent nations from the Global South, the conference welcomes insights and expertise from around the world, including the Global North. This cross-regional collaboration not only contributes to narrowing gaps in global health knowledge, but also encourage mutual respect and long-term partnerships. ICOPH is proud to be a bridge connecting diverse regions in pursuit of a healthier, more equitable world.

Global Reach:

This year, ICOPH brought together a vibrant and diverse community from across 54 countries, with more than 800 papers submitted by participants representing over 100 universities, as well as government institutions and independent research bodies.

The conference drew professionals from a wide array of roles and sectors, including academic leaders, frontline public health workers, early-career researchers, and policymakers. This diversity of voices enriched the dialogue, fostering globally relevant and locally grounded insights into the evolving landscape of public health.

SPECIAL FEATURES

The conference offered a rich array of special features designed to balance academic rigor with practical, real-world application. These included insightful keynote addresses, dynamic plenary sessions, interactive panel discussions, and hands-on workshops. In addition, exclusive networking spaces were thoughtfully curated to foster meaningful connections and collaborative opportunities among participants. Together, these elements created a comprehensive experience that engaged participants across disciplines and sectors.

KEYNOTE ADDRESSES

Speaker:

Dr. Kasem Tangkasemsamran
Medical Physician, Advisory Level,
Director of Public Health Academic
Bureau, Ministry of Public Health,
Thailand

Inauguration Keynote

Speaker:

Dr. Andrea Bruni
Regional Adviser for Mental Health
WHO

Title: “Transforming Mental Health in the
WHO South-East Asia Region: Progress
and Way Forward”

PLENARY SPEECHES

Title: “Total Workplace Safety & Health approach to Health of the Community – A Singapore Approach”

Speaker: By Dr. CHIA Sin Eng, MBBS, MD, MSc. (OM), FAMS, FFOM (Lond) Saw Swee Hock School of Public Health National University of Singapore

Title: “Universal Health Coverage as the Cornerstone of Resilient Public Health Systems in Africa”

Speaker: Dr. Hulisani Matakanye University of South Africa, South Africa

Title: “Harnessing Artificial Intelligence in Teaching and Learning for Public Health Education”

Speaker: Dr. Saira Mehnaz Jawaharlal Nehru Medical College, Provost, Begum Sultan Jahan Hall, Aligarh Muslim University, India

Title: “AI-Driven Prognostic Scoring for Non Communicable Diseases – A Pathway to Achieving Global Health Goals”

Speaker: Assoc. Prof. Dr. Mohamad Rodi Isa Universiti Teknologi MARA (UiTM) Malaysia

WORKSHOPS

Title: “Building Collaborative Public Health Networks”

Speaker: By Dr. Raman Preet (Global Health and Epidemiology Unit Umeå University, Sweden)

Title: “Community Based Participatory Research for Health equity”

Speaker: Prof. Dr. Hematram Yadav (Sr. Public Health Specialist, Malaysia)

Title: “Leveraging Digital Tools for Health System Strengthening”

Speaker: Prof. Padmini Ranasinghe (Co-Director Education Division of Hospital Medicine Johns Hopkins School of Medicine, USA)

Title: “Musculoskeletal and Pain Ultrasound”

Speaker: Dr. Ajai Sambasivan, MD (University of Texas, UTHealth Department of Physical Medicine and Rehabilitation)

Title: “Publiation Workshop”

Speaker: Dr. Axel Kaehne (Professor of Health Services Research, Medical School, Edge Hill University, United Kingdom)

PANEL DISCUSSIONS

Title: “The Digital and AI Revolution in Healthcare and Public Health”

Moderator:

Prof. Padmini Ranasinghe (Co-Director Education Division of Hospital Medicine Johns Hopkins School of Medicine, USA)

Panelists:

Prof. Karin Verspoor (Dean, School of Computing Technologies RMIT University in Melbourne, Australia)

Dr. Axel Kaehne (Edge Hill University, United Kingdom)

Title: “Health System Innovation in Low Resource Settings”

Moderator:

Dr. Pahurat Kongmuang Taisuwan (Ministry of Public Health, Thailand)

Panelists:

Dr. Juliet Nyasulu (University of Stellenbosch University, South Africa)

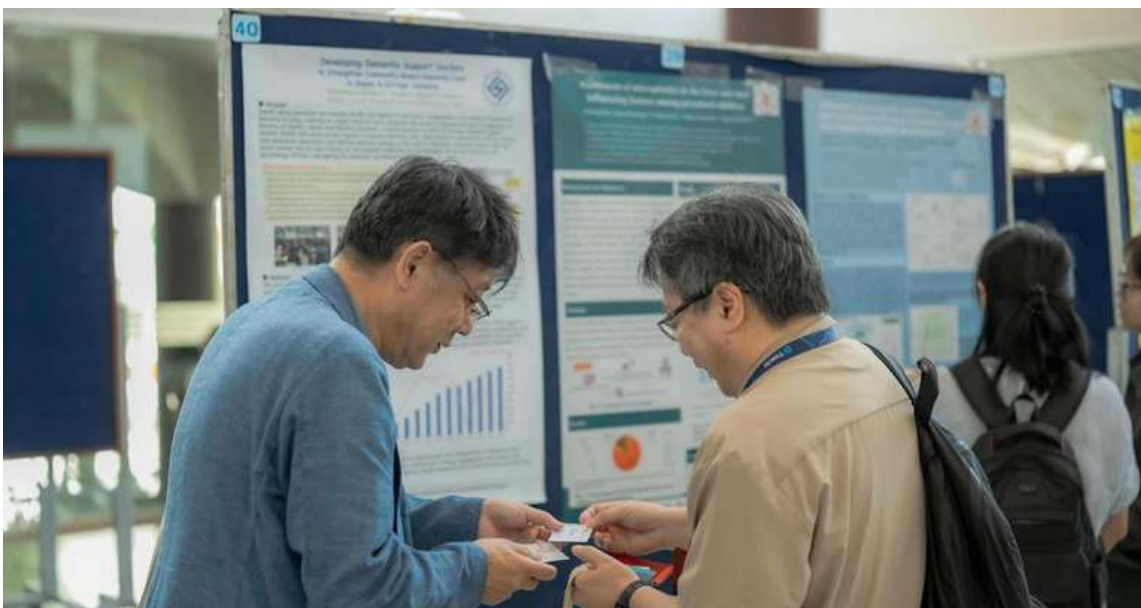

Dr. JudilynnL. Niedo-Solidum (University of the Philippines Manila, Philippines)

Prof. Dr. Gilmore G. Solidum (College of Nursing, Philippines)

COLLABORATIONS & NETWORKING

Collaborations and Networking were at the heart of ICOPH 2025. The conference featured a variety of opportunities for presenters and attendees to connect, including the exclusive Partner Networking Space - Bilateral Academic Forum, which ran across all three days. An Open Networking Space on Day one created room for engaging dialogue among participants and resource people, while informal interactions during breaks and meals added further opportunities to form lasting professional relationships. These platforms positioned ICOPH as a hub for cross-sector and cross-border collaboration in public health.

Bilateral Academic Forum:

As a part of the Bilateral Academic Forum – Powered by TIIKM at the 11th International Conference on Public Health (ICOPH 2025), five bilateral and multilateral meetings were successfully conducted, encouraging academic collaboration and international partnerships.

Forum Overview:

The Bilateral Academic Forum provided a platform for one-on-one discussions between universities, research institutions, healthcare organizations, and academic professionals. These engagements facilitated knowledge exchange, research collaboration, and long-term institutional partnerships.

TIIKM's Role:

Through this initiative, TIIKM continues to bridge global academic networks, promote sustainable partnerships, and support impactful dialogue in public health education and research.

Outcomes:

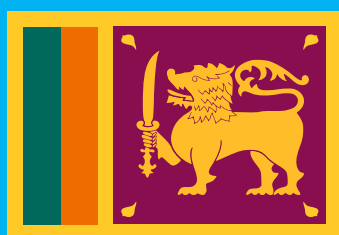

These meetings strengthened international connections, enabled strategic collaborations, and laid the foundation for future joint initiatives in public health.

- **Zambia National Public Health Institute (ZNPHI), Zambia and Nagcarlan Rural Health Unit, Philippines**

ICOPH 2025 facilitated meetings with the Zambia National Public Health Institute (ZNPHI), Zambia and the Nagcarlan Rural Health Unit, Philippines. During these meetings, the Director Workforce Development of ZNPHI and MD Dr. Alvin De Luna discussed potential collaboration on community projects, with a special focus on epidemic management. Notably, this marked the first-ever outreach by a Zambian delegation to the Nagcarlan Rural Health Unit in the Philippines.

- **Implementation Agreement between Andalas, University, Indonesia and TIHKM .**

- Co-Hosting Partner Agreement between TIIKM and University of Hasanuddin, Indonesia for ICOPH 2026 to be held in Bali, Indonesia.

- Multi- lateral Discussions

ICOPH facilitated multi-lateral meetings connecting delegates from Singapore, Botswana and Indonesia taking them on to one common platform.

Another multi-lateral discussion took place with the participation of delegates from Iraq, Zambia, Indonesia and Sri Lanka. Delegates represented Hermina Hospitals, Indonesia, Slim Pharmaceuticals, Sri Lanka, College of Medicine, Al- Naharain University, Iraq and Zambia National Public Health Institute.

Building on the success of the bilateral and multilateral meetings held at ICOPH 2025, the way forward for the Bilateral Academic Forum involves formalizing the connections established during the conference. TIIKM aims to support these evolving partnerships by providing continued facilitation, coordination, and follow-up mechanisms that ensure progress beyond the event itself.

Involvement of Academic Partners:

ICOPH 2025 was honored to have the support of 18 Academic Partners representing institutions from Indonesia, the Philippines, India, South Africa, Iraq, and Botswana. Their active involvement greatly enhanced the academic depth and diversity of the conference, making them integral to its overall success.

Engagement of University Coordinators:

The involvement of University Coordinators from our partner institutions stood out as a core strength of the conference. By connecting faculties and students to the event, they significantly extended its academic impact. Their participation encouraged meaningful collaboration between institutions and gave them a platform to broaden their professional connections.

Coordinator	University
Moh Heri Kurniawan	Hermina Hospital, Indonesia
Dr. Saira Mehnaz	The Aligarh Muslim University, Aligarh, India
Dr.Hulisani Matakanye	Department of Health Studies, University of South Africa
Teofilio Damoco	Union Christian College, Philippines
Dr. Nathanael Sirili	School of Public Health and Social Sciences, Muhimbili University of Health and Allied Sciences, Tanzania
Ms. Thembane Nokukhanya	Mangosuthu University of Technology, Durban, South Africa

Dr. Haneen Hussein Sahib AL-Saedi	College of Medicine, Al- Nahrain University, Baghdad, Iraq
Prof. Tiny Masupe	Department of Family Medicine & Public Health, Faculty of Medicine, University of Botswana, Botswana
Prof. Dr. Nurpudji A. Taslim	Hasanuddin University, Indonesia
Dr. Made Indra Wijaya	Faculty of Medicine and Health Sciences Warmadewa University, Indonesia
Asso. Prof. Dr. Hasanain Faisal Ghazi	College of Nursing, Al- Bayan University, Iraq
Prof. Olanrewaju Oladimeji	Department of Public Health, Sefako Makgatho Health Sciences University, South Africa
Dr. Kuhlula Maluleke	Faculty of Health Sciences, University of Pretoria, South Africa

Volunteer Program and Capacity Building

Another vital component of the conference's success was the engagement of volunteers from partner universities. These individuals gained valuable exposure, expanded their professional networks, and honed their public relations and organizational skills. The current volunteer initiative also allowed us to broaden our volunteer base, paving the way for stronger institutional collaboration and future leadership development within our community.

Open Networking Space:

At ICOPH 2025, a dedicated segment titled the Open Networking Space was introduced following the inauguration ceremony, offering participants a valuable platform to connect and engage. This exclusive session created a dynamic environment for meaningful conversations, particularly around shared research interests, collaborative opportunities, joint projects, and academic publications. The session was skillfully led by the Conference Co-Chair, Prof. Dr. Hematram Yadav, Conference Advisor, Dr. Raman Preet, along with Steering Committee Member Dr. Axel Kaehne and TIIKM Co-Founder Mr. Isanka Gamage.

PRESENTATION AWARDS

ICOPH 2025 saw a significant number of paper submissions, with several outstanding works selected for presentation. Presenters were assessed by an expert evaluation panel based on a comprehensive set of criteria, including research quality, field contribution, originality, and time management. Final decisions regarding the award recipients were made under the careful oversight of the Conference Co-Chair and Advisor. Presenters were awarded under Session Best, Best Poster, Student Best and Overall Best categories, separately in physical and virtual platforms.

Award Winners - Physical

Session Best Presenters

Communicable Diseases

Francis Ngosa Mwenya
Zambia National Public Health
Institute
Zambia

Nutrition and Dietetics

Regina Tuwongkesong
Hasanuddin University
Indonesia
Namuyuni Mwiinga
Lupososhi District Health Office
Zambia

Non- Communicable Diseases

Baone Twala
University of the Witwatersrand
South Africa

Health Communication and Health Information technology

Mariel Horncastle
Queen Margaret University
The UK
Melaku Muleta Debela
ThinkPlace Ethiopia, Addis Ababa
Ethiopia

Adolescent and Young Adults Health

Danish Kamal
Aligarh Muslim University
India

Maternal, sexual and reproductive health

Seema H. Satbhai
Dr.Vishwanath Karad
MIT World Peace University
India
Ziningi Nobuhle Jaya
University of Pretoria
South Africa
Ni Made Diaris
Udayana University
Indonesia

Infant and Child Health

Lutgard Musiime
Makerere University
Uganda

Primary healthcare

George Ndubuisi Okoli
The University of Hong Kong
Hong Kong

Mental Health

Alvin Michael M. de Luna
Batangas Medical Center
Philippines

Health Service Management and Health Policy Research

Gimbo Hyuha
Muhimbili University of Health and Allied Science
Tanzania
Darshen Naidoo
University of the Witwatersrand
Johannesburg
South Africa

Health Economics and Occupational Safety

Ouma Stephina Mokwena
Tshwane University of Technology
South Africa

Epidemiology

Karla May Manahan, RN, DIH, PHSA
Bureau of Jail Management and Penology
Philippines

Oral Health

Nilubol Panabuth
Sirindhorn College of PublicHealth
Praboromarajchanok Institute
Thailand

Best Poster Presenters

◆ Chi-Sian Kao
Taipei Medical University
Taiwan

◆ Nsanza Maambo
National Health Research Authority
Zambia

◆ Roxanne Pillay
Mangosuthu University of Technology
South Africa

Best Student Presenters

◆ Ni Putu Diah Natalia Damayanti
Hasanuddin University
Indonesia

◆ Laarni Hannah C. Lacorte
Far Eastern University
Philippines

Overall Best Presenters

◆ Olasunmbo Makinde
Health Strategy and Delivery Foundation
Nigeria

◆ Emilie Efronson
National AIDS and STI Control Program
Ministry of Health
Liberia

◆ Esther Chanda Chitabanta
University of Zambia

Award Winners - Virtual

Session Best Presenters

Primary Healthcare

Tendulkar Kimaya
CEPT University
India

Epidemiology

Siti Najiha binti Md Asari
Universiti Kebangsaan
Malaysia

Health Economics and Occupational Safety

Haneesn Hussein Sahib Al-Saedi
Nahrain University
Al-Kadhimia
Iraq

Adolescent and Young Adults Health

Aschbacher A
Alpen-Adria-University of Klagenfurt
Austria

Nutrition and Dietetics

Hansani Madushika Abeywickrama
Niigata University
Sri Lanka

Health Service Management and Health Policy Research

Mokoena M.M
North-West University
South Africa

Non- Communicable Diseases

Nimmagadda S
Independent Researcher
India

Best Poster Presenter

- ◆ Dayag HV
Wen School of Population and Public Health
University of California
The USA

Best Student Presenter

- ◆ Sahibdad I
University of Karachi
Pakistan

Overall Best Presenters

- ◆ Deans N.A
YRG Care Hospital
Suniti Solomon Centre
India
- ◆ Sonia Chaabane
Weill Cornell Medicine
Qatar
- ◆ Redmond E.C
Cardiff Metropolitan University
UK

TESTIMONIALS

“It was an incredible honor to attend the 11th International Conference on Public Health and present our project, ISIPAN, on the global stage. Sharing our work in front of esteemed experts, especially Dr. Andrea Bruni of the World Health Organization was truly humbling. Representing Nagcarlan, Laguna, and the Philippines made the experience even more meaningful. Winning Overall Best Presenter was a proud and unforgettable moment”.

Alvin Michael M. de Luna, MD, MPH, CPC-FP
Nagcarlan Rural Health Unit
Batangas Medical Center DFCM
Philippines

“I was amazed at the breadth of topics discussed at the conference. I really enjoyed hearing about new innovations and ideas from hundreds of participants. It is in these brief moments where we gather together in one place from all over the world, share, and collaborate that makes working in public health fulfilling”.

Dr. Reina Juno Sumatra
Rural Health Physician
Philippine Society of Public Health Physicians

SPECIAL ACKNOWLEDGEMENTS

We would like to extend our heartfelt thanks to all participants, speakers, resource persons, and partners for their invaluable contributions to the success of ICOPH 2025. Your engagement, thoughtful insights, and active participation made this conference a truly impactful and memorable experience.

A special acknowledgement goes to our Conference Co-Chairs—Prof. Dr. Hematram Yadav and Dr. Alene Gelbard for their exceptional leadership, vision, and dedication in guiding the academic and strategic direction of the conference. We would also like to recognize Dr. Raman Preet, our Conference Advisor, for her invaluable guidance and continued support throughout the planning and execution phases.

Our sincere appreciation extends to the Steering Committee for their strategic input, academic oversight, and unwavering commitment to the conference's success.

Special thanks go to the Scientific Committee for their rigorous work in reviewing submissions and ensuring that only high-quality and relevant research was featured at the conference. We also gratefully acknowledge the efforts of our Session Chairs and Evaluators, who managed the technical sessions with professionalism and attention to detail.

CONCLUSION & WAY FORWARD

ICOPH 2025 was a tremendous success, made possible by the enthusiastic participation of public health professionals, researchers, academics, and policymakers from around the world. Together, we examined pressing global health challenges, exchanged impactful research, and explored innovative approaches to improving health systems and outcomes. As we look forward to ICOPH 2026, we are committed to building on this momentum deepening interdisciplinary engagement, strengthening global partnerships, and expanding opportunities for collaborative research and knowledge exchange.

The next edition of ICOPH will continue to serve as a vital platform for global public health dialogue, with an emphasis on inclusivity, innovation, and real-world impact. We aim to broaden our reach, welcome diverse voices, and ensure meaningful participation from all regions and sectors.

Most importantly, we're listening!

Your feedback is already shaping our plans for the future. From improving session formats and enhancing accessibility, to creating more opportunities for early-career researchers and underrepresented communities, your insights are guiding our next steps. We remain dedicated to making ICOPH a more dynamic, inclusive, and solution-driven platform for the global public health community. Thank you for being part of ICOPH 2025 and for helping us move forward, together.

With Gratitude,
Organizing Committee - ICOPH

THANK YOU!

SEE YOU IN BALI NEXT AUGUST!
